

## LOCAL SCHOOLS AND EDUCATION

Improving lives by: supporting local schools and education through financial support, volunteerism, and scholarships.

### AT A GLANCE

#### Our Support Includes

- Awarding \$25,000 scholarships to worthy high school seniors
- Opportunities for Team Members to engage by volunteering their time in local schools
- Employee engagement through collection campaigns

### WHAT THEY ARE SAYING

"Thank you so much for your generous donation to my 3rd grade classroom... Your generosity will have a direct impact on my students and their learning environment. With your donation I am not only able to purchase supplies to make learning easier and more efficient, but I am also able to provide differentiated resources to individual students to meet their learning needs and interests."

**Kristin Brown**

WV TEACHER | THIRD GRADE

### OVERVIEW

Greylock is a significant supporter of local schools and education. Whether it's providing an elementary school teacher with classroom supplies, serving as a "Partner in Education" with area schools, sponsoring a fifth-grade graduation trip, or providing college scholarships to worthy high school graduates, our commitment to supporting local schools and education is substantial and unwavering.

### IMPROVING LIVES

#### Awarding the Greylock Scholarship

Each year, Greylock awards Team Member dependent scholarships to high school graduates seeking to further their education. With an initial award of \$5,000, scholarship recipients who maintain a 3.0 GPA are invited to reapply for the scholarship each year (up to five years) and earn a maximum award of up to \$25,000 to fund their college careers.

#### "Filling the Bus" with School Supplies

For several years, Greylock has partnered with our neighbors and a local television station to "Fill the Bus" by collecting donations of paper, pencils, pens, backpacks, binders, and more to outfit kids in our community for the coming school year.

#### Underwriting (and Constructing) an Outdoor Classroom

In the midst of the COVID-19 pandemic, schools were searching for ways for children to learn in safe environments. One local school devised an outdoor classroom, complete with outdoor learning activities and lessons. Greylock underwrote the cost of purchasing supplies for the outdoor classroom and Team Members volunteered to help install the necessary activities and equipment.

#### Partnering with Schools and Supporting Teachers

Greylock serves as a "Partner in Education" with several schools and supports other schools and teachers as well. From purchasing ice pops for field day and setting up a new teacher's classroom, to presenting at career day to a group of future engineers, Greylock is committed to educating the workforce of tomorrow.
